Summary

Front-End Developer with hands-on experience building responsive, scalable, and user-friendly web applications using React.js, Next.js, and the modern JavaScript ecosystem. Developed multiple real-world projects, including full-stack platforms, admin dashboards, and Single Page Applications (SPAs), with REST API integration and authentication. Proficient in JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, and modern UI development practices. Experienced in integrating authentication (Clerk), databases (PostgreSQL), and CMS platforms (Strapi) into production-ready applications. Passionate about clean code and continuous learning, seeking a Junior Front-End Developer role to contribute to high-quality, scalable web products.

Skills

- **Frontend & Web Development:** HTML5, CSS3, Responsive Design, JavaScript (ES6+), TypeScript, React.js (Redux Toolkit, React Router), Next.js, Bootstrap, Tailwind CSS, React Bootstrap, Shadcn UI, HyperUI, Component-Based Architecture, UI/UX Fundamentals
- **Tools & Productivity:** Git, GitHub, Performance Optimization
- **Backend Fundamentals:** PHP, MySQL, Database Concepts (code reading & understanding), Strapi CMS, REST APIs
- **Programming & Fundamentals:** C++, OOP, Data Structures & Algorithms, Bash Scripting
- **Soft & Other Skills:** Problem Solving, Teamwork, Self-Learning, AI Tools (ChatGPT, Claude, Gemini AI) for productivity and learning, Strong Mathematical Thinking, Presentation Skills (Gamma, Google Slides)

Projects

Car Marketplace (Full Stack)

- Full Stack car marketplace platform with dynamic user and admin sections.
- Built dynamic search and filtering system (car type, price, condition) with category-based listings.
- Integrated Clerk authentication, PostgreSQL with Drizzle ORM (Neon.tech), and Cloudinary for image uploads.
- **Tech Stack:** React.js, Tailwind CSS, Shadcn UI, PostgreSQL, Drizzle ORM, Clerk, Cloudinary.
- Live Demo: <https://car-marketplace-delta-smoky.vercel.app/>
- GitHub Repository: <https://github.com/omar-rehann/CarMarketplace.git>

Doctor Appointment Booking System (Full Stack)

- Developed a full-stack healthcare appointment platform with doctor browsing, specialty filtering, and detailed doctor profiles.
- Implemented appointment scheduling, booking, cancellation, and user-friendly management features.
- Built an admin dashboard using Strapi CMS to manage doctors, specialties, services, articles, and appointments.
- **Tech Stack:** Next.js, React.js, Tailwind CSS, Shadcn UI, Strapi CMS, Clerk Authentication, REST APIs.
- Live Demo: <https://booking-appointment-rho.vercel.app/>
- GitHub Repository: <https://github.com/omar-rehann/Booking-Appointment.git>

Grocery Store (Full Stack)

- Full-Stack grocery e-commerce platform with category-based product browsing (Fruits, Vegetables, Meat, Juices, Pastries).
- Implemented cart system with quantity selection, product quick-view, and full order summary with total pricing.
- Integrated secure card payments using Stripe and authentication using Clerk.
- Built an admin dashboard for full product management (add, edit, delete) with role-based access control.
- **Tech Stack:** React.js, Next.js, Clerk, Stripe, Tailwind CSS, HyperUI, React Hot Toast.
- GitHub Repository: <https://github.com/omar-rehann/Grocery-Store.git>

Professional Experience

Front-End Instructor (React.js & Next.js) *Techno Square* **April 2026 – July 2026**

- Taught Front-End Development fundamentals and modern practices, focusing on React.js and Next.js.
- Delivered hands-on training covering component-based architecture, state management, and API integration.
- Guided trainees through building real-world projects, reinforcing best practices in clean code and UI/UX.
- Provided mentorship and code reviews to help trainees improve problem-solving and debugging skills.

Remote Front-End Internship *Codveda Technologies* **Nov 2025 – Dec 2025**

- Developing responsive web applications using modern front-end technologies (React.js, JavaScript, HTML, CSS).
- Implementing RESTful API integration to build dynamic and data-driven interfaces.
- Building reusable UI components and Single Page Applications (SPAs).
- Working in a remote team environment while maintaining clean and maintainable code standards.

Remote Front-End Internship *Code Alpha* **April 2025 – May 2025**

- Developed multiple interactive projects including Calculator, Image Gallery, Music Player, and Portfolio Website.
- Improved JavaScript skills through DOM manipulation, event handling, and state-driven UI logic.
- Designed fully responsive interfaces with strong focus on user experience and usability.
- Successfully delivered multiple projects within deadlines, demonstrating fast learning and adaptability.

Front-End Development Training Program *Information Technology Institute (ITI)* **Jul 2024 – Aug 2024**

- Completed a 120-hour intensive Front-End Development training program focused on modern web development practices.
- Gained strong experience in HTML5, CSS3, JavaScript (ES6+), Bootstrap, and SASS through hands-on projects.
- Built multiple responsive web applications with emphasis on clean code and UI/UX principles.
- Strengthened problem-solving skills and applied front-end best practices in real-world scenarios.

Online Courses & Certifications

- | | |
|--|----------------------------|
| • JavaScript Algorithms and Data Structures | <i>freeCodeCamp</i> (2024) |
| • JavaScript Certification | <i>freeCodeCamp</i> (2024) |
| • Introduction to Front-End Development | <i>Coursera</i> (2024) |
| • Front-End Web Development Program | <i>Maharah Tech</i> (2024) |

Education

B.Sc. in Computer Science *Faculty of Science, Port Said University*

Port Said, Egypt *2022 – 2025*

Grade: Very Good (B+)

Graduation Project: Online Examination System using front-end technologies

Languages

- **Arabic** [Native]
- **English** [B1]
