

Omar Rehan

Junior MERN Stack Developer — React.js — Node.js

Mobile: +20 127 661 2118 Email: omarrehan724@gmail.com Address: Cairo, Egypt
LinkedIn: linkedin.com/omar-rehan GitHub: github.com/omar-rehann Portfolio: omar-rehann.github.io

Summary

Junior MERN Stack Developer with hands-on experience building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in developing RESTful APIs, JWT authentication, admin dashboards, and CRUD operations. Delivered production-ready projects with responsive UI using Next.js and Tailwind CSS. Strong foundation in problem-solving and clean code practices.

Professional Experience

Freelance Front-End Developer *Beti*

January 2025 – Present — Remote

- Fixed 15+ post-launch bugs on a React.js real estate platform serving agents, buyers, and tenants.
- Resolved critical image loading failures on the platform, improving page reliability and user experience.
- Restored missing developer data and broken footer links, improving overall site reliability.

Freelance Front-End Developer *Zero Tech*

Aug 2025 – Present — Remote

- Architected a responsive security systems e-commerce site with Next.js/React.js, including product filtering, cart, and Clerk auth.
- Gathered client requirements independently and delivered Phase 1 on schedule.

Front-End Instructor *Techno Square*

April 2025 – July 2025

- Taught React.js and Next.js to 100+ students through hands-on projects and weekly code reviews.
- Improved students' code quality by enforcing best practices and clean architecture.

Front-End Development Training Program *ITI*

Jul 2024 – Aug 2024

- Completed 120-hour intensive training covering HTML5, CSS3, JavaScript, Bootstrap, and SASS.
- Built responsive web applications using modern front-end practices.

Skills

- **Frontend Development:** HTML5, CSS3, Responsive Design, JavaScript (ES6+), TypeScript, React.js (React Hooks, Redux Toolkit, React Router), Next.js, Bootstrap, Tailwind CSS, Shadcn UI, Component-Based Architecture, UI/UX Fundamentals
- **Backend Development:** Node.js, Express.js, RESTful APIs, Authentication & Authorization (JWT, Clerk), CRUD Operations, Middleware, Strapi CMS
- **Database & Storage:** MongoDB, Mongoose, Supabase Storage, Database Design & Integration
- **Tools & Deployment:** Git, GitHub, Vercel
- **Programming Fundamentals:** OOP, Data Structures & Algorithms
- **Soft Skills:** Problem Solving, Teamwork, Communication, self-learning

Projects

Food Restaurant Management & Ordering Platform

- Developed a full-stack restaurant platform designed to support online food ordering and restaurant management through dedicated customer and admin interfaces.
- Built a customer-facing platform that allows users to browse food categories, explore menu items, manage their cart, and place food orders through a responsive interface.
- Developed an admin dashboard for managing the restaurant's menu, categories, food items, and operational data through a centralized management system.
- Implemented secure user authentication and role-based authorization to separate customer and administrative access.

- **Tech Stack:** MongoDB, Express.js, Next.js (App Router), Node.js, Mongoose, JWT, Tailwind CSS, Shadcn UI, Supabase Storage, Git, GitHub, Vercel.
- **Demo:** [Live Demo](#) **GitHub:** [Repository](#)

Car Marketplace

- Built a high-performance e-commerce marketplace designed to streamline vehicle search and comparison, enabling users to filter and browse cars effortlessly through an intuitive UI.
- Integrated secure Clerk authentication, instant Cloudinary media processing, and dynamic database queries via Drizzle ORM to ensure fast page load speeds and data reliability.
- Engineered a responsive UI with reusable components using React.js, Tailwind CSS, and shadcn/ui, including full admin CRUD operations.
- **Tech Stack:** React.js, Tailwind CSS, shadcn/ui, PostgreSQL, Drizzle ORM, Clerk, Cloudinary, Git, GitHub, Vercel.
- **Demo:** [Live Demo](#) **GitHub:** [Repository](#)

Home Services Platform

- Designed a seamless service marketplace connecting customers with local service providers through structured categories and a transparent online booking workflow.
- Optimized UI responsiveness and page routing using Next.js and shadcn/ui, improving navigation speed and user experience.
- Integrated Strapi CMS via REST APIs for real-time category management and service content deployment with Clerk authentication.
- **Tech Stack:** Next.js, React.js, Strapi CMS, Tailwind CSS, shadcn/ui, Clerk, Git, GitHub, Vercel.
- **Demo:** [Live Demo](#) **GitHub:** [Repository](#)

Taxi Booking

- Developed a responsive taxi booking web application featuring secure authentication, ride booking, booking history, ride cancellation, and dynamic routing for seamless navigation.
- Integrated React Leaflet for interactive destination mapping and implemented ride booking, cancellation, and booking history with Clerk authentication.
- Built a responsive UI with reusable React components using Next.js, React.js, Tailwind CSS, and Shadcn UI.
- **Tech Stack:** Next.js, React.js, Strapi, Tailwind CSS, Shadcn UI, React Leaflet, Clerk, Git, GitHub, Vercel.
- **Demo:** [Live Demo](#) **GitHub:** [Repository](#)
